## **DETAILED ACTION**

This office action is in response to the amendment filed on March 6, 2006.

Claims 3, 8-12, 15, 18-23, 25-29 and 34 are pending in this application.

***Withdrawn Rejections/Objections:***

Applicant is notified that any outstanding rejection/objection that is not expressly maintained in this office action has been withdrawn or rendered moot in view of applicant's amendments and/or remarks.

***The following rejections are maintained:***

Claims 3, 8-12, 15, 18-23 and 25 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-14 and 24 of U.S. Patent No. 6,632,945. The reasons provided in the previous office action are incorporated hereby reference.

It is acknowledged that 'applicants will consider filing a terminal disclaimer upon notice that the claims are otherwise in condition for allowance'.

***The following rejections are necessitated by the amendment:***

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 15 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claim depends from claim 14 which has been canceled.

***The following rejections are under new grounds:***

Claims 3, 8-12, 18-23, 25-29 and 34 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 3, in the definition of Q<sub>3</sub>, in the recitation '.... bicyclic ring system **comprising** aromatic carbocyclic rings, .... ', the term "comprising" is open ended. 'Comprising' in a compound claim, leaves the claim open for the inclusion of unspecified heteroatoms. The use of the above phrase causes the claim to be broader than the invention. See *In re Fenton*, 451 F.2d 640, 171 USPQ 693 (CCPA 1971). Replacing the term with -- consisting of -- (as recited in the definition of Q<sub>2</sub>, see page 36, line 2) would obviate the rejection.

***Note: If applicant amends claims 3 and 15 to overcome the rejections under 35 U.S.C. 112, second paragraph above, the only remaining rejection would be the obviousness-type double patenting rejection over U.S. Patent No. 6,632,945.***
